Employment Opportunities

Position Title: Network Analyst
Competition #: 14-021
Location: St. Albert
Salary Range: $61,826.00 to $81,120.00 per annum
Closing Deadline: 2014/02/24
Job Status: Screening

Brief Job Description

Reporting to the Team Leader, Network Services, this position is responsible for coordination and planning of physical infrastructure (racking, cabling, fibre, power, and cooling) and Wide Area Network service implementation for retailer, gaming, and corporate sites; perform environmental modeling to determine air flow dynamics; provisioning and maintenance of the infrastructure monitoring system and its components; maintain and provide recommendations for equipment for Data Centers. The successful candidate will possess in-depth knowledge of Cisco IOS and network troubleshooting tools.

This position is the point of contact for external contractors and works with end users to provide client support on network issues that cannot be handled by tier 1 support personnel in the Service Desk Area. In addition, it is the responsibility of this position to implement and maintain any network related equipment, software or processes as required. Continuous improvement is an important aspect of this position as the successful candidate will be required to exploit opportunities to learn both technically and procedurally to increase efficiency. This position will be required to manage individual assignments and small projects independently within the direction provided by the Team Leader.

In addition, you are knowledgeable regarding the administration of Windows based computer systems, including how to manage, install and remove computer hardware and software in regard to network components and tools. You must be able to work well under pressure and have strong written and verbal communication skills. To be successful in this role, you will possess well-developed analytical and problem solving skills.

You must be able to work a 7X24 “on call” duty rotation (up to 25% of the working year). In addition, you must be able to return to the St. Albert Head Office within 1 hour of problem notification while on call.

Specific Skills / Background Required

- Related University degree or technical diploma from an accredited post-secondary institution.
- A minimum of four (4) years of progressive TCP/IP data and network communications experience

In-depth Knowledge of the following will be considered an asset:

Cisco Wireless, Cisco Software and Management appliances (NAM, DCNM, ACS, ISE). Security (IPS, ASA/Firewall), Cisco Nexus, Data Center, Solarwinds Orion and Wide Area Network experience. CCNA and/or CCNP certification. Any other Cisco Specialist Certifications.

Note: Equivalent combinations of education and technical experience will be considered. Candidates with lower level experience may be considered for positions at a lower classification level. This position may be used to fill future vacancies.

To be eligible to work for the Alberta Gaming and Liquor Commission, you must be a Canadian citizen, permanent resident or eligible to work in Canada. We offer a comprehensive range of benefits. As a condition of employment you will be required to obtain a security clearance prior to employment.
