ABOUT THE AGLC

The Alberta Gaming and Liquor Commission is a dynamic organization leading Alberta's gaming and liquor industries. Our team of high performers is driven to provide our customers with outstanding service and Albertans with choices they can trust.

ABOUT THE POSITION

Server Solution Architect

Competition #: 17-012

Salary: \$78,890.00 to \$104,492.00 per annum

Closing Date: Sunday, April 23, 2017

Position Location: St. Albert

JOB SUMMARY

Would you like to work in an environment that offers a change of pace, diversity, and work life balance? Are you looking for an organization that will value your experience and allow you to contribute to its modernization agenda? Then you have come to the right place!

As the Server Solution Architect you will be responsible for the design, implementation, and maintenance of the Server Support technology portfolio and roadmaps. You will work in partnership with other IT professionals and end users to create technical solutions that meet AGLC architectural standards, technology roadmaps and best practices and will fulfill business requirements. This includes documentation and knowledge transfer to analysts and teams inside and outside of Server Support.

As the successful candidate, you will be able to demonstrate strong abilities in written, verbal communication and problem solving within a team setting. You must have knowledge and experience in the setup, installation and administration of various server, storage, database and operating systems technologies and related support tool sets. Significant experience in an infrastructure based virtualized environment is critical in this role. You must be able to solve complex problems and is able to effectively communicate up, across, and down the organization. You will also require excellent time management skills. This is a specialized technical role that requires a deep understanding of technologies across all of Infrastructure and Operations.

Career Opportunity
