**1.21 NEW GAME APPROVAL PROCESS**

1.21.1 New games considered for introduction to the province includes gaming activities that possess features or methods of delivery that are deemed to be significantly different from the features or methods of delivery of gaming activities currently available in the province.

1.21.2 New games do not include minor variations of existing technologies or gaming activities. For example, a variation of an approved card game (e.g., blackjack) to a casino facility is not considered a new game.

1.21.3 The approval process for a new gaming activity involves four (4) major steps, as follows:

One – Initial Assessment

- i) the proponent of a new activity must provide to the AGLC a business plan and other required information which will allow the AGLC to arrive at a sound preliminary assessment related to the viability of the proposed new game;
- ii) the AGLC will evaluate the proposal using criteria such as:
  - compliance with the requirements of the *Criminal Code* (Canada), *Gaming and Liquor Act* (Alberta) and *Gaming and Liquor Regulation* (Alberta);
  - demand from consumers (market potential) for the proposed new game;
  - benefits to be derived for charitable, non-profit, public or community-based initiatives;

- manner in which the proposed new game would be delivered, including the proposed location from which the new game is to be conducted or delivered.

- iii) the proposal must also clearly indicate how the revenue from the new game would be divided among prizes, expenses, and ultimately proceeds to charity.

b) Step Two – Obtaining Community Views

The AGLC will determine the type and extent of public input required regarding the proposed new game. Such input may range from public consultations or the express consent of a community to considering community objections. The decision in this regard will be affected, among other considerations, by the proposed new game, including its type, where it would be available, financial benefit/cost, and impact on existing gaming activities.

c) Step Three – Final AGLC Review

The AGLC will forward the proposal and results of its final review including results from public input, for review and consideration by the Board.

d) Step Four – Approval

The Board will consider the proposal and results of the AGLC's review. The new game will be authorized subject to the Board's approval.

**SECTION: 10. RULES OF PLAY**

- h) Basic Play
- i) Player's cards shall be dealt in front of betting space so that pips are visible.
  - ii) Dealer's cards are dealt in front of chip tray.
  - iii) Starting on dealer's left:
    - each player is dealt one card face-up;
    - dealer then takes one card before dealing second face-up card in same order to each player; and
    - dealer then takes a second card (face-up if the first dealer card is face down or face down if the dealer's first card was dealt face up) and slides the face down card beneath the exposed card.
  - iv) When dealer's card showing is not an ace or a ten value card, the "Maxtime" device is not used and play continues as normal.
  - v) If the dealer receives a hand with a ten value card up:
    - the dealer will handle cards with left hand, utilizing the middle finger, index finger and thumb, slide the cards downward and to the right and insert them into the unit under the hood vertical to the chip rack.
    - never lift the front edge of the cards to slide them into the Card Reader. This will reveal the hole card and defeat the purpose of the device.
    - if an "A" or an insignia is seen in the viewing window on the right side of the Card Reader, the dealer will slide the cards out of the unit, turn over the hole card (revealing the Blackjack) and terminate the hand (collect all losing bets and "push" all player Blackjacks).
    - if nothing is seen in the window, the dealer will slide the cards out of the unit, return the cards to their normal position and continue play.
  - vi) If dealer receives a hand with an Ace as card up:

**SECTION: 10. RULES OF PLAY**

- will announce "Insurance" as soon as ace is visible;
- the dealer will turn the cards horizontal to the unit by utilizing the right index finger at the lower right hand corner of the cards and pushing the cards to the left;
- close insurance by announcing "Insurance Closed," and do a "Handwave" with their right hand directly in front of the tray to the right of the dealer cards. (The "Handwave" is the same as a player uses to indicate "stand");
- after insurance has been closed, the dealer (utilizing the thumb, index finger and middle finger of the left hand) will slide the cards downward and to the right so as to insert them into the Card Reader unit.

Note: The cards must be horizontal to the chip tray to remain flat to the table.

- never lift the front edge of the cards to slide them into the Card Reader. This will reveal the hole card and defeat the purpose of the device;
- if a "10," "J," "Q" or "K" is seen in the viewing window on the right side of the Card Reader, the dealer will slide the cards out of the unit, return them to their normal vertical position, turn over the hole card (revealing the Blackjack) and terminate the hand (collect all losing bets and "push" all player Blackjacks and pay all insurance bets 2 to 1);
- dealer will then collect all cards and place in discard rack; and
- if nothing is seen in the window, the dealer will slide the cards out of the unit, return the cards to their normal position and continue play as normal.

- vii) Insurance - If dealer shows an ace, before any players draw a card, dealer shall ask "Insurance"? Player may put up an amount equal to one-half of their original bet to insure their hand. The bet is placed on the front line of the

**SECTION: 10. RULES OF PLAY**

betting square. If dealer draws Blackjack, the insurance bet pays two to one.

- Players betting on more than one square must insure each hand individually with a separate insurance bet.
- Once the dealer has closed insurance by saying "Insurance Closed" and by doing the "handwave," no more insurance bets will be accepted.
- When the dealer does have a Blackjack, the original wagers lose (except for player Blackjacks, which are "pushes") and anyone with insurance bets will be paid at the rate of two (2) to one (1) on their insurance bet.
- When a player insures his Blackjack, the original wager is a "push" and the insurance bet will be paid at the rate of two (2) to one (1) on his insurance bet.
- When the dealer does not have Blackjack, all insurance bets lose and will be collected immediately by the dealer and placed in the dealer chip tray. The round will then continue as normal with the player hands being played out in normal rotation.

viii) Player must use hand signals to indicate:

- Hit - draws additional cards. A Blackjack cannot be hit.
- Stand - draws no additional cards.

ix) Double down - Player may double down on the first two cards dealt (any total, except Blackjack). Player puts up an additional, separate bet equal to the original in value and receives only one additional card. Hit-card is placed at right angles to first cards dealt. If dealer makes a Blackjack, player only loses the original bet.

x) Pair Splitting - If first two cards are of equal point value, player may play each as a separate hand by putting up an additional, separate bet equal to the original bet. If the first card drawn to either split hand produces another pair:

**SECTION: 10. RULES OF PLAY**

- player may split again to create another hand, to a maximum of four split hands;
- each time a pair is split, player must put up a separate equal bet;
- exception: Aces may be split only once, and are limited to one additional card per hand;
- first split hand shall be completed before second hand is played;
- player may “double down” on first two cards of split, after splitting. Player puts up an additional, separate bet equal to the original in value and receives only one additional card. Hit-card is placed at right angles to the first cards dealt.

Exception: Aces may not be “doubled down” on after split.

- a two-card 21 on a split hand is not a Blackjack;
  - if player's first two cards are two “3's, 4's, 5's or 6's” and a bet equal to original is put up, dealer shall inquire whether player is doubling down or splitting.
- xi) Surrender: Once player has received first two cards and prior to any action, the player will have the option of “surrender.”
- Once player has received their original two cards and the dealer does not have an ace showing, the player will announce “Surrender” to the dealer. Players will not be allowed to handle their bet when requesting to surrender.
  - If the dealer has an ace up, Surrender will not be an option until it has been determined that dealer does not have Blackjack.
  - The dealer will announce surrender and proceed to take the chips out of the betting space and place them in front of the cards.
  - The bet will then be broken down into halves.

**SECTION: 10. RULES OF PLAY**

- One-half of the bet will be placed back in the betting circle.
  - The other one-half of the bet will be placed in the tray and the cards placed in the discard rack.
  - If after breaking the bet in half, an odd amount is left over, the dealer will set the odd amount beside the two half stacks. The dealer will then come out of the tray with one-half of the odd amount, prove it and place it beside the surrender bet.
  - The decision to offer the surrender option is at the discretion of the casino facility licensee. If a casino chooses to offer Surrender, it will be clearly posted on the limit sign placed on the game.
- xii) After all players' hands are completed, dealer shall:
- not play if all players have busted;
- OR
- announce dealer's Card, pause, and turn over his hole card. He then takes his prescribed "hits" as required.
- AND
- dealer shall stand if:
    - a hit-card played on dealer's hand of less than 17 brings it to a hard 17; or
    - total is either a hard or soft total of 18, 19, 20, 21.
- xiii) if a hit card on a hand of less than 17 brings total over 21, dealer busts.
- i) Settlement
- i) Bets are paid, or taken, starting with player on dealer's right and continuing to left.
  - ii) A push shall be indicated by dealer patting table in front of betting space.
  - iii) If player's hand is busted during the round of play, bet shall be taken immediately and player's cards burned.

**SECTION: 10. RULES OF PLAY**

- iv) If player's hand is Blackjack, and dealer's card is neither an Ace nor "10," dealer shall immediately pay bet at player's turn and burn player's cards.
- v) All payoffs shall be made colour-for-colour or conversion, provided dealer announces conversion payout. Given a Blackjack win by player, dealer first matches player's bet colour-for-colour, then adds half again of player's original bet in correct denominations or announces "Blackjack Pays \$\_\_\_\_\_." The dollar amount announced shall be total Blackjack payout. Chips shall be fanned for visual verification next to original bet.
- vi) After all bets are paid or taken, dealer shall pick up remaining hands in order, from right to left, and own hand last, and place all cards in discard holder.
- j) Irregularities

NOTE: Pit boss will be called to determine which decision applies.

- i) Hit Without Hand Signal: If card is dealt prior to player making hand signal, dealer shall immediately notify pit boss, who shall declare card dead and instruct dealer to burn it.
- ii) Dealing to Blank Space: If card(s) is dealt to space with no bet, dealer shall immediately notify pit boss who shall declare card(s) in that space dead and instruct dealer to burn card(s).
- iii) Hand Signal Disputes: In case of dispute between player(s) and dealer as to interpretation of hand signal, pit boss shall be notified immediately. If player complains before dealer's hand is played, pit boss shall:
  - allow player who has missed hit-card(s) to take hits after all other players have completed their hands, but before dealer's hand is played; or
  - if player's hand has been hit by mistake, declare hit-card dead, instruct dealer to burn it, and player hand stands.

- That hole card is considered to be a "live" card if and only if there has been no "hit" taken by anyone. In this instance it will be used as the "hit card" for the first person requiring a "hit."
- That hole card is considered to be a "dead" card if any hit has been taken. In this instance the card will be

- e) Five card hand ranking must be posted and clearly visible at each table.

**10.4.2 Object of the Game**

player/banker winning nothing, or in fact paying out players, no commission is collected.

- e) Table signage shall include notification of the commission, and that the commission is payable to the house, not to the player/banker.

**10.4.5 Sequence of Play**

- a) All players and the banker will receive seven cards, which they use to construct two separate hands of two cards and five cards. These hands will be ranked using standard poker hand rankings. Since the two card hand is made up of only the two cards, the highest possible hand is a pair. It is not possible to get a flush or a straight in the two card hand.
- b) The two card hand must always be lower in ranking than the five card hand. If the two card hand is set higher than the five card hand, the hand is fouled by the player and is an automatic loser.
- c) The five card hand combinations are the same as in normal poker, the highest hand possible being five Aces (four Aces and the Joker). The Joker is wild with flushes or straights and may be used as an Ace. It may not be used to create pairs, three of a kind, four of a kind or five of a kind other than with Aces.
- d) Both the two card and five card hands must be higher in value than the banker's hands for the player to win:
  - i) if only one of the player's hands is higher than the banker's, the result is a tie. No money is won or lost and the player may take down or change his bet before the next hand;
  - ii) if player's two hands are lower than the banker's, the player loses the amount he has bet;
  - iii) if player's two hands are higher than the banker's, the player wins an amount equal to his bet, but must pay a 5% commission to the house. This commission must be posted next to bank bet or in space provided, prior to the cards being dealt; and

- iv) if the player and banker have one identical hand, this is a copy hand and the banker wins that hand. Copy hands are possible with the five card hand, but are most commonly seen with the two card hand.

**10.4.6 The Shuffle**

- a) After the last hand is completed, unplayed cards are placed on top of the cards in the discard rack.
- b) All cards are then brought to the centre of the table. At this time, the first hand Designation procedure is performed (see Subsection 10.4.7 d)).
- c) The single deck riffle shuffle must be used (see Subsection 9.8).
- d) The dealer offers the cut to the player/banker first. If the dealer is the banker, the cut is offered to all players from left to right.

**10.4.7 The Deal**

- a) After the deck is cut, seven hands of seven cards each are dealt, regardless of how many players are at the table:
  - i) the first, third, fifth and seventh cards are dealt from left to right;
  - ii) the second, fourth and sixth cards are dealt from right to left; and
  - iii) the seven stacks of seven cards must be dealt in front of the tray; and
- b) Remaining cards are counted down, verified and placed into the discard rack. If the remaining cards number more or less than four, the pit boss shall be notified and cards are re-shuffled and re-dealt.
- c) The first hand will be indicated by moving it approximately two inches toward the players. The last stack will be turned horizontally. Delivery will start with the first stack from left to right. If a player is banker, he will decide which stack will go first.

**SECTION: 10. RULES OF PLAY**

- d) Two options are available for designating which position will receive the first hand:
- i) Where cards will be used:
- after the last hand, but before starting the shuffle, the cards are given a short wash and squared by the dealer;
  - the deck is placed in front of the player/banker or, if the dealer is the banker, in front of the tray;
  - the banker cuts approximately half the deck. The first card on top of the bottom half of the cut deck is turned over by the dealer and shown to all players. This card determines which player will receive the first hand. The dealer's position is No. 1, the first player on the dealer's left is No. 2, the next player is No. 3, and so on through to No. 7; and
  - if an Ace through 7 is cut, that is the designated first hand. If a larger card is cut, 7 will be subtracted from the card's numerical value, e.g.,  $9 - 7 = 2$ ,  $10 - 7 = 3$ . Note: Jacks have a value of 11; Queens have a value of 12; Kings have a value of 13; and the Joker has a value of 14.
- ii) Where a dice cup will be used:
- a dice cup containing three dice is shaken by the Banker to determine who receives the first hand. All bets must be in the betting circle before the dice are uncovered; and
  - once the starting position number is determined, the same procedures as 10.4.7 (a)(b)(c) are followed.
- e) Each hand is placed into the player's square:
- i) if a player receives a hand of any amount of cards other than seven, that hand is dead; and
- ii) if the banker, either dealer or player, receives a hand with an amount of cards other than seven, all hands are dead.

**SECTION: 10. RULES OF PLAY**

**10.4.8 Settlement**

- a) Players will rank their cards. Set the two card hand in front and the five card hand in back as indicated on the layout. Hands that are set making the two card hand higher than the five card hand are automatic losers.
- b) After all player's hands have been set, the dealer will set his hand in front of the tray. House hand will be organized according to the house rules based on the chart located at the back of this section. The pit boss or pit supervisor have the final say as to how the house hand is set for hands with more than one possible setting. After the house hand is exposed, players cannot touch their cards.
- c) If it is discovered during settlement that the house hand is set wrong, the pit boss will be immediately notified and will rectify setting of the house hand.
- d) After house hand is exposed, dealer will turn over and spread players' hands in rotation from right to left.
- e) Dealer announces all win, lose and push hands. The push hand cards will be collected immediately and be placed in the discard rack; winning cards are left spread face up by the players' circle, and are paid after all hands are determined.
- f) When the house is the banker, all losing hand cards are placed in the discard rack, and the losing bets are placed in the tray. All winning bets are paid from the tray.
- g) When a player is the banker, losing hand cards are placed in the discard rack, but all losing bets are moved to the centre of the table as they belong to the banking player.
- h) Cards can only be handled by one player and **MUST** stay over the table at all times.
- i) The banker wins all copy hands, either two or five card.
- j) All winning hands are charged a 5% commission, which is placed prior to the cards being dealt.

- b) The player/banker bankroll must be placed beside the 'chung' which is positioned inside the circle.
- c) The player/banker is always offered the cut first.
- d) The dealer acts as a player when a player is the banker. Dealer will bet an amount similar to the player/banker's last bet; however, the player/banker may ask that the dealer's bet be lowered or that the dealer not bet at all.
- e) The player/banker cannot look at his/her cards until all other players, other than the dealer, have set their hands. Dealer's hand is always set last. Once dealer's hand is exposed, no player can touch his/her cards.
- f) The player/banker cannot set an automatic losing hand. If the bank hand is set as an automatic loser, the house takes control of the hand and sets it according to the house rules. The player/banker is still responsible for all outcomes.
- g) During the player/banker sequence, action between the dealer and the player/banker is settled first:
  - i) if the house wins, the cards are stacked up to the right corner of the tray, with the house wager placed on top.
  - ii) if the house wager loses, the house wager is placed in the centre of the table, with all other losing wagers and the cards placed in the discard rack.
  - iii) if the house and the player/banker push, the house wager is immediately put in the tray and the cards placed in the discard rack.
- h) After the house hand has been determined, the player/banker hand will be moved to the centre of the table. The dealer will turn over the rest of the players' hands in rotation.
- i) On losing bets, the cards will be placed in the discard rack with the losing wagers being placed in the centre of the table. Winning hands will be spread next to the player's circle.

**10.13 TILE PAI GOW**

**10.13.1 General Description**

Pai Gow literally translates into “Card Nine” and is a Chinese game played with dominoes, or tiles with dots. There are thirty-two tiles in Pai Gow, giving eight hands of four tiles each. The tiles are set into two hands of two tiles each: one low hand and one high hand. The value of each tile is given at the end of this section. The red spots are not relevant to the ranking of the tiles and their only function is to help distinguish one tile from the other.

**10.13.2 Object of the Game**

The object of the game is to set the two hands in the best “ranking” combinations: the highest ranking combination (high hand) and a second highest combination (low hand). In turn, the bank will compare its low hand with the players’ low hand the highest hand wins. Then, the bank compares its high hand with the players’ high hand and again, the highest hand wins. In order to win, players must win both hands. Players lose when the banker wins both hands. If the banker wins one hand and the player wins the other, it is a push.

**10.13.3 Tile Rankings**

- a) The highest ranking hands in Pai Gow are pairs.
- b) The next highest two-tile ranking combinations are the Wongs and Gongs.
  - i) A wong is any twelve tile or two tile combined with any 9; and
  - ii) A gong is any twelve tile or two tile combined with any 8.
- c) After this, the hands are ranked in numerical value (9 through 0), but each individual tile has a ranking. If both the bank and player have tiles with the same numerical total, the hand with the highest individual ranking tile wins. Tile ranking applies only to the highest tile from each hand.
- d) If both the player and the bank have the same total and the same high tile, the BANK wins.
- e) Pairs, wongs, gongs and individual rankings are shown at the end of this section.

**10.13.5 Commission**

- a) The House will charge a 5% commission on all winning player bets plus a 5% commission on all NET player-banker wins.
- b) If the player-banker loses money, no commission is taken, but commission is taken on any amount that the player-banker wins after all bets are paid out.

**SECTION: 10. RULES OF PLAY**

**10.13.11 House Way (House Strategy) for Setting Dealer's Hands**

Dealers must set their hands according to a specified strategy. The house reserves the right to reset the dealer's hand according to the set strategy, should the dealer fail to do so.

The house Strategy for dealer hands is as follows:

- a) Never split two pairs.
- b) Where the hand has one pair, this will usually be played as the high hand with the two remaining tiles forming the low hand. However, the following exceptions apply:
  - i) Only split Gee Joon (3,6) when the third tile is a 6 and the fourth tile is a 4, 5 or 6.
  - ii) The house will split a pair of 12's or 2's anytime the resulting hands total 6 and 8 or higher.
  - iii) Split a pair of 7's when the other two tiles are any two of 10, 2, 11 or 12.
  - iv) Split 8's with any two of 10, 2, 11 or 12, or, when the other two tiles are a 9 and 11.
  - v) Split 9's with any two of 10, 2, 12.
- c) Never split 4's, 5's, 6's, 10's and 11's.
- d) Next, look for a Wong, Gong or High Nine, where the hand contains both a 12 and a 2, plus two of 7, 8 or 9, set the 2 in the high hand and the 12 in the low hand. If the hand contains only one of either the 12 or the 2, place the 12 or two in the high hand.
- e) If the hand contains none of the above, use the following guidelines for setting the hand:
  - i) Use the Cheung, or high 6, as the breaking point for determining high/low tiles.
  - ii) If the high hand is less than 7, play the hands as close together as possible.
  - iii) If the hands total 7 - 9 or less, play the highest ranking tile on the low hand. If the hands total 8 - 9 or higher, play the highest ranking tile on the high hand.

- v) With a 7, 11, white 10 and red 8, play 7 - 9. However, if there is no red 8 or white 10, play 8 - 8.
- vi) With a 2 or 12, white 6, 5 and Gee (3 or 6), play 7 - 9.
- vii) With any 10, 6, 5 and Gee (3 or 6), play 5 - 9.
- viii) Other than listed exceptions above, match the biggest and the smallest tiles, in point total, then use the other two tiles for the second hand.

**10.13.12 Sequence of Play**

- a) Once all hands have been set, the tiles are turned over and read by the dealer, always counter-clockwise from the bank.
- b) If the hand is a winner, the tiles are left face up in front of the player's bet.
- c) If the hand is a losing hand, the bet is removed. (When dealer is bank, the bet is immediately placed in the tray; when a player is banking, the bet is placed in front of the player/banker's betting square, until used for paying winning bets.) The tiles are also removed, and placed in front of the chip tray, face up.
- d) If the hand results in a push, the bet is left, but the tiles are also removed and placed face up in front of the chip tray.
- e) Tiles from losing or push hands from player spots 1, 2 and 3 are placed in front of the tray on the dealer's right. Tiles from spots 4, 5 and 6 and the dead hand are placed on the left side.

- ii) The dealer shakes the dice cup three times and places the cup in the centre of the layout, between tray and betting circles.

- iv) The bank will receive the first hand when the roll of the dice totals 9 or 17. The first square on the dealer's right is spot 1, and receives the first hand when the roll of the dice totals 10 or 18. The next player to the right is spot 2 and will receive the first hand when the total of the dice is 3 or 11. The next spot, #3, will receive the first hand when the total of the dice is 4 or twelve, etc. There MUST be one dead hand in that is not shown.
- v) The hands are distributed according to the outcome of the dice. The dealer/banker's hand is placed in the middle of the layout, and the bank marker is placed on top.

If he accepts to bank, the marker is left at spot #2; the tiles are mixed and the following player/banker procedures are followed. If no player accepts the bank, the dealer banks for the next hand, and the bank again offered to each player in turn.
- b) Player Bank:

  - ii) The player must play at least one hand as player before being permitted to bank.
  - iii) When a player opts to bank, he must bet (or put up) an amount equal to or more than, the posted table maximum bet per one square (that is, if the posted table limit is \$20 to \$200, the player/banker must bet at least \$200 in order to bank).
  - iv) There is no maximum bet for players when another player is banking.
  - v) The dealer may make a house bet against the player/banker of the amount set by the house and posted on the table. This amount can never exceed the posted table maximum bet. The player may also ask the house not to bet.
  - vi) The house bet is placed in the centre of the layout.
  - vii) The tiles are mixed and stacked, and the first stack to be distributed is moved forward about 1". The dealer will shake the dice cup once before offering it to the player/banker to shake. The player/banker must shake the cup at least three times before the dice are exposed.

- ix) The bank marker is placed on the player/banker's tiles until everyone else has set their hands.
- x) Once all players have set their hand, the player/banker may then set his hand. The dealer will set his hand last, according to House strategy. The dealer will settle the house hand first. Once settled, the house hand is either stacked on the left front of the tray if a losing or push hand, or placed in the middle in front of the tray if a winning hand with the house bet placed on top of the tiles. The dealer will then place the player/banker's hand in the front of the layout, and proceed with settlement of the players' hands.
- xi) Losing players' bets are placed in the middle of the layout, beside the player/banker's hands. Tiles are removed and stacked for losing and push hands.

    - House limits will remain in effect.
  - ii) The co-banker will shake the dice and the count for hand placement will begin with the co-banker's spot.
  - iii) The co-banker will not touch the tiles. Once players have set their hands, the dealer will remove the bank marker from the co-banker's tiles, and set the hand.
  - iv) Should the bank hand lose more than it won, the house and co-banker will each put in half of the additional required amount.

6. T.T.L. (Total Table Liability) is net balance of chips/coin transactions and is calculated as follows:

$$TTL = \begin{array}{|c|} \hline \text{Column} \\ \hline (2) \\ \hline \text{Opener} \\ \hline \end{array} + \begin{array}{|c|} \hline \text{Column} \\ \hline (3) \\ \hline \text{Fills} \\ \hline \end{array} - \begin{array}{|c|} \hline \text{Column} \\ \hline (4) \\ \hline \text{Credits} \\ \hline \end{array} + \begin{array}{|c|} \hline \text{Column} \\ \hline (5) \\ \hline \text{Closer} \\ \hline \end{array}$$

**NOTE:** When combined totals of column 2 (opener) and column 3 (fills) are less than total of column 4 (credits) and 5 (closer), this is a negative result and amount entered in T.T.L. column shall be bracketed [ ]. When totalling T.T.L. column this amount is subtracted.

7. Total value of all cash/chips deposited in drop box during day as recorded on Drop Box Count Cards.
- 8/9. To determine whether a game has won or lost for the day, compare the T.T.L. to actual revenue Drop.

b. **LOSS** - If T.T.L. is more than the drop, it is a loss, enter the difference between the two in *LOSS* column, i.e.

<u>T.T.L.</u>	<u>DROP</u>	<u>WIN</u>	<u>LOSS</u>
\$200	\$100	--	\$100

c. **WIN** - If T.T.L. is a negative [ ] amount, it is a win, **add** this amount to drop and enter result in *WIN* column, i.e.

These funds, or any additional funds requested by the AGLC as provided for in Section 4.9, will be used as required to cover the cost of conducting background checks. *(Amended Mar 2016)*

14.2.8 The physical location of the proposed new facility is submitted as part of the valid Expression of Interest required in Subsection 14.2.7d) and j). This location is used in the initial assessment and all subsequent steps in the process. It must remain unchanged throughout the process, from the complete Expression of Interest (see Subsection 14.2.7) to the final submission (see Subsection 14.6.7) through to the end of the process. (The physical location on the reserve may change for a First Nations proposal.)

14.2.9 The AGLC does not require municipal land use, zoning and development approval for an Expression of Interest to be deemed valid. Applicants should defer seeking appropriate municipal approvals until advised in writing by the Board as provided for in Subsection 14.9.3.

14.2.10 An applicant who has submitted an Expression of Interest will be advised as to whether its submission is determined to be valid or reasonable by the Board, based on an initial assessment by the AGLC of:

- g) the expected gross gaming revenue (a significant proportion of the expected gross gaming revenue to be generated by the proposed new facility will be new gaming revenue and will not be drawn from other existing or proposed casinos); and
- h) the viability of existing casinos or approved casinos (i.e. an approved casino refers to an application approved for a casino facility licence subject to meeting the outstanding requirements, as provided for in Subsection 14.9.5) in the same community or specified market area as the proposed new facility (the viability of the existing or approved casinos cannot be significantly compromised).

14.2.11 If the Board deems the Expression of Interest to be valid, Step Two: Notice of Expressed Interest may be initiated.

14.2.12 An Expression of Interest deemed to be valid by the Board is not based on a definitive analysis of the feasibility of a traditional casino facility or First Nation casino facility in the community; nor does it assure the level of success or support of a proposed new facility in the community. Moreover, an Expression of Interest deemed to be valid shall not be considered or promoted as an endorsement by the AGLC of a traditional casino facility or First Nation casino facility in a community.

14.2.13 If an applicant indicates it no longer wishes to pursue a casino facility licence during Step One, the application process shall conclude and the balance of the deposit will be returned to the applicant. *(Amended Mar 2016)*

14.2.14 If the submitted Expression of Interest is deemed by the Board not to be valid, it will be rejected and the application process shall conclude.

14.2.15 The applicant who submitted the Expression of Interest which has been deemed not valid will:

**14.3 STEP TWO: NOTICE OF EXPRESSED INTEREST**

14.3.1 For the purposes of this Section, there are two distinct types of Notices of Expressed Interest:

- a) a Notice of Expressed Interest for a traditional casino facility as defined in Subsection 14.1.9a); and
- b) a Notice of Expressed Interest for a First Nation casino facility as defined in Subsection 14.1.9b).

14.3.2 Following from Subsection 14.2.11, the AGLC will issue a Notice of Expressed Interest, to accept Expressions of Interest for a traditional casino facility or First Nation casino facility from other interested parties (“applicants”). This step is intended to encourage the best possible proposal by allowing interested parties in a specified market area, determined by the location of a community identified in a valid Expression of Interest from Step One, an opportunity to make an application.

14.3.3 Only a First Nation may apply for a First Nation casino facility in the specified market area identified in a valid Expression of Interest from Step One.

14.3.4 A Notice of Expressed Interest will:

- a) identify the community in which the proposed new facility is located;
- b) be advertised by the AGLC:
  - i) where possible, in at least three issues within two consecutive weeks in a newspaper(s) published and circulated in the community identified in a valid Expression of Interest from Step One; and

develop a traditional casino facility or First Nation casino facility in the specified market area.

14.3.6 Interested parties will be allowed a period of up to 90 days to submit applications in response to the Notice of Expressed Interest after the notice is first advertised as provided for in Subsection 14.3.4.

14.3.7 Each Expression of Interest must contain information as described in Subsection 14.2.7 and an initial deposit of \$10,000.00 or another amount specified to cover the cost of the background checks pursuant to section 28 of the *Gaming and Liquor Regulation*. (Amended Mar 2016)

14.3.8 Applicants must submit to the AGLC a valid Expression of Interest within the specified time period. Only the applicants who submit valid Expressions of Interest in this step or Step One shall be considered for a casino facility licence in the specified market area described in the Notice of Expressed Interest.

14.3.9 Expressions of Interest are deemed to be valid as provided for in Subsection 14.2.10.

14.3.10 An Expression of Interest withdrawn by an applicant will have the balance of its deposit returned. (Amended Mar 2016)

14.3.11 If any submitted Expression of Interest is deemed by the Board not to be valid, it will be rejected and the application process shall conclude, subject to Subsection 14.3.12 c).

14.3.12 The applicant who submitted the Expression of Interest which has been deemed not valid will:

- c) be advised of the right to request a hearing into the matter, as per Section 94 *Gaming and Liquor Act*.

14.3.13 The AGLC will not consider the applicant referred to Subsections 14.3.10 or 14.3.11 for a casino facility licence in the community for a period of at least two years from the date of the Board decision to conclude the application process or the conclusion of the hearing process, unless otherwise directed by the Board.

**14.4 STEP THREE: INITIAL ASSESSMENT**

14.4.1 Following from Subsection 14.3.8, the AGLC will conduct an initial assessment to determine whether a traditional casino facility or First Nations casino facility in a community within a specified market area has merit.

14.4.2 The concept of a traditional casino facility or First Nations casino facility may be deemed to have merit if a valid Expression of Interest respecting the facility meets basic criteria such as:

- a) charities must wait for a reasonable period of time to hold casino events from the time they have been deemed eligible for a casino event licence by the AGLC (does not apply to proposed First Nations casino facilities);
- b) the proceeds to charities from charitable events held in the proposed new facility will be comparable to and competitive with those generated in other casino facilities in the province (does not apply to proposed First Nations casino facilities);
- c) a significant proportion of the expected gross gaming revenue to be generated by the proposed new facility will be new gaming revenue and will not be drawn from other existing or proposed casinos;
- d) the viability of existing casinos or approved casinos (i.e. an approved casino refers to an application approved for a casino facility licence subject to meeting the outstanding requirements, as provided for in Subsection 14.9.5) in the same community or specified market area are not significantly compromised; and
- e) the proposed new facility would meet or exceed the AGLC's casino facility standards and operating guidelines as set forth in the CTCOG.

14.4.3 If the Board deems the concept of a proposed new facility in the specified market area to have merit, Step Four: Community Support may be initiated.

14.4.4 An Initial Assessment that deems a proposed new facility in a community within a specified market area to have merit is not based on a definitive analysis of the feasibility of a proposed new facility in

the community; nor does an Initial Assessment assure the level of success or support of a proposed new facility in the community. Moreover, an Initial Assessment deemed to have merit shall not be considered or promoted as an endorsement by the AGLC of a proposed new facility in a community.

14.4.5 If the Board deems the concept of a proposed new facility in the specified market area not to have merit, the process concludes and no further consideration will be given to a new facility in the community for a period of two years from the date of the Board decision to conclude the application process or the conclusion of the hearing process, unless otherwise directed by the Board.

14.4.6 The applicants who submitted a valid Expression of Interest for a new facility in the specified market area not deemed to have merit will:

- a) be advised in writing of the Board's decision and its reason(s) for the process concluding;
- b) have the balance of their deposit returned; and *(Amended Mar 2016)*
- c) be advised of the right to request a hearing into the matter, as per Section 94 *Gaming and Liquor Act*.

14.4.7 The AGLC will advise all councils in the specified market area, through the council's chief administrative officer or municipal clerk or equivalent, of the outcome of Step Three: Initial Assessment.

- 14.5.1 The Board may consider the views of the community including the views, if any, expressed by a council in relation to a proposed casino application and may refuse to issue a licence at anytime throughout the process if the Board is of the view that the community is not in favour.
- 14.5.2 The AGLC will not consider applications for a casino facility licence in a community where a casino facility licence has been rejected by the Board because of lack of community support for a period of two years from the date of the Board decision to conclude the application process or the conclusion of the hearing process, unless otherwise directed by the Board.
- 14.5.3 Following from Subsection 14.4.3, the Board will consider community support, or lack thereof, as expressed by the council for the concept of a new casino in the community.
- 14.5.4 The AGLC will formally notify the council, through the council's chief administrative officer or municipal clerk or equivalent, that it has deemed the concept of a new casino in the community to have merit. The AGLC will advise the council of:
- a) the name of the applicant(s); and
  - b) the location(s) of the proposed casino facility(ies).
- 14.5.5 The council's expressed support, or its lack of expressed support, for the concept of a new casino in its community will be considered by the Board. Expressed support means a resolution of council in support of, or not opposed to, the concept of a new casino in its community.
- 14.5.6 Lack of expressed support means a council resolution withholding expressed support or rejecting the concept of a new casino.
- 14.5.7 The Board will not consider any conditions placed on or attached to a council resolution respecting the concept of a new casino in the community.
- 14.5.8 If the council is silent and there is no significant demonstrated opposition respecting the concept of a new casino in the community,

**SECTION: 15. EXPANSION OR RELOCATION OF A CASINO FACILITY**

**15.2 EXPANSION OF A CASINO FACILITY**

*(Added Nov 2017)*

15.2.1 In this section, “expansion” means the significant physical expansion of the gaming or non-gaming (public or restricted) areas (see Subsection 4.1.2) in a licensed casino facility as determined by the AGLC. Such expansion may include an increase in the building envelope or its outer dimensions (for facility renovations or minor structural changes see Subsection 4.1.6).

Note: A building envelope refers to the outer perimeter of the building in which an existing licensed casino facility is located and includes space rented, leased, subleased, sold or otherwise provided to others in the same building. A building's outer dimensions refer to the building height as well as its envelope.

15.2.2 Approval for the expansion of an existing licensed casino facility may only be issued after the requirements in the following steps are completed in order:

1. Initial Assessment
2. Community Support
3. Approval

15.2.3 If at any time the casino facility licensee decides it no longer wishes to pursue the application for the expansion of its casino facility, it must notify the AGLC in writing of its decision to withdraw the application.

**STEP 1 – INITIAL ASSESSMENT**

15.2.4 A casino facility licensee initiates this step by providing to the AGLC a proposal in writing for the expansion of an existing licensed casino facility.

15.2.5 The proposal must contain all required information related to the expansion of the casino facility, including, but not limited to:

- a) a detailed description of the proposed expansion, including all gaming and non-gaming (public or restricted) areas that will be affected;
- b) a market assessment, including:
  - i) a three (3) year revenue forecast, including:

- revenue sources (e.g. slot machines, table games, and other revenue sources, such as a hotel, food and beverage services etc.);
- methods and assumptions used in the market assessment; and
- a risk assessment;
- ii) a marketing plan describing how both the financial and non-financial goals will be achieved; and
- iii) the estimated economic impact to the community (e.g. jobs, tax revenue);
- c) the physical design of the facility, including:
  - i) the legal address, site plans, drawings, blue prints, etc.;
  - ii) the impact on traffic and parking in the area;
  - iii) a description of any additional amenities to the casino such as a hotel, food and beverage services, entertainment, etc.;
  - iv) the total number of slot machines, table games and other gaming devices envisioned (see Section 16.2 Slot Machine Allocation);
  - v) a description of the facility's security features; and
  - vi) the construction costs and schedule;
- d) a three (3) year business plan, including:
  - i) pro forma financial statements, including:
    - both income and balance sheet statements;
    - revenue streams broken down by slot machines, table games and other gaming and non-gaming revenue sources;
    - operational expenses categorized and described in detail; and
    - a set of statements for the casino's operations and a combined set of statements for entire facility if hotel or other amenities exist in the existing facility;

**SECTION: 15. EXPANSION OR RELOCATION OF A CASINO FACILITY**

- ii) three (3) year cash flow projections and sensitivity analysis of projections, including the:
  - total financing costs;
  - terms of financing; and
  - total capital (construction) and operational costs; and
- iii) the legal structure of the organization, including:
  - a description of any changes in the licensee ownership or legal structure;
  - any new directors or officers of the organization; and
  - if financing is required, who will be the lender, and what are the terms of the credit agreement, etc.

Note: any change to the legal structure or financial interests of the licensee will be subject to AGLC background checks (see Section 4.9).

15.2.6 Upon receipt of a proposal, which meets all the requirements in Subsection 15.2.5, the AGLC will assess and validate the information to determine whether the proposed expansion has merit.

15.2.7 The assessment process will take into consideration factors such as, but not limited to, the:

- a) impact to charities' gaming proceeds should the proposed casino expansion take place;
- b) cannibalization of gaming revenues in the market area and surrounding areas resulting from the proposed casino expansion;
- c) impact to existing or approved gaming facilities (i.e. casinos, RECs, video lottery retailers and bingo halls) in the existing market area; and
- d) financial impacts to local charities, the Alberta Lottery Fund and the AGLC.

15.2.8 The casino facility licensee will be advised if its submission is determined to have merit based on AGLC's assessment of the:

- a) completeness and accuracy of information in the submission;

**SECTION: 15. EXPANSION OR RELOCATION OF A CASINO FACILITY**

- b) feasibility of the proposed expansion of the facility;
- c) benefit to charities due to the proposed expansion of the casino facility;
- d) projected gross gaming revenue. A significant proportion of the projected gross gaming revenue is expected to be new gaming revenue and not be drawn from other existing or approved gaming facilities; and
- e) impact on the viability of existing or approved gaming facilities.

An initial assessment that deems the expansion of an existing licensed casino facility to have merit does not assure the level of success or support of the casino expansion.

15.2.9 If the AGLC deems the expansion to have merit, Step Two: Community Support may be initiated.

15.2.10 A proposal deemed to have merit shall not be considered or promoted as an endorsement by the AGLC of an expansion of the licensed casino facility.

15.2.11 If the AGLC deems the proposed expansion not to have merit, the approval process concludes and the expansion will be rejected.

15.2.12 The casino facility licensee who submitted a proposal that has been rejected by the AGLC will be advised in writing of the:

- a) reason(s) for the decision; and
- b) process to appeal the AGLC's decision (see Subsection 15.2.27).

**STEP 2 – COMMUNITY SUPPORT**

15.2.13 Following from Subsection 15.2.9, the AGLC may consider the views of the community including the views, if any, expressed by a council in relation to a proposed casino expansion. If the AGLC is of the view that the community is not in favour the AGLC may refuse to approve a proposed licensed facility expansion at any time throughout the process.

**SECTION: 15. EXPANSION OR RELOCATION OF A CASINO FACILITY**

15.2.14 The AGLC will:

- a) notify the council, through the council's chief administrative officer or municipal clerk or equivalent of the name of the applicant and details of the proposed expansion; and
- b) consider any written response of council respecting its views on the proposed expansion of the licensed casino facility in the community.

15.2.15 The AGLC will not consider any conditions placed on or attached to a council resolution respecting a casino expansion in the community.

15.2.16 Applicants are required to issue a public notice in the community advising the community of the proposed casino expansion in the community. The advertisement must:

- a) specify the addresses within the community affected by the casino expansion;
- b) be approved by the AGLC for its content and layout prior to being published; and
- c) be published in at least three issues within two consecutive weeks, where possible, in a newspaper(s) published and circulated in the community where the licensed casino facility is located.

15.2.17 Following from Subsection 15.2.16, the applicant must submit to the AGLC a copy of the complete newspaper pages containing the advertisements.

15.2.18 If the council is silent and there is no significant demonstrated opposition respecting the casino expansion in the community, the AGLC at its discretion may decide to continue the approval process.

15.2.19 If the AGLC at its discretion decides to continue the approval process, Step Three: Approval may be initiated.

15.2.20 If the AGLC at its discretion decides to conclude the approval process for the expansion of the casino facility in the community, the process shall conclude.

- b) process to appeal the AGLC's decision (see Subsection 15.2.27).

**STEP 3 – APPROVAL**

15.2.22 Following from Subsection 15.2.19, the AGLC will make a determination respecting the approval of the proposed expansion of a licensed casino facility.

15.2.23 The AGLC may approve the proposed expansion of a licensed casino facility if the casino facility licensee has met all of the other requirements in Section 15.2 and can:

- a) demonstrate compliance with the approved structure and amenity requirements as outlined in the application package;
- b) demonstrate compliance with all provincial and federal legislation, regulation and policies;
- c) demonstrate compliance with all municipal requirements, including local zoning or development requirements respecting the expansion and produce any permits, licences or authorizations necessary to operate; and
- d) produce a copy of an executed lease, rental agreement or certificate of title or other acceptable proof of right to occupy and control the premises (pursuant to Section 14 of the Gaming and Liquor Regulation).

15.2.24 If the AGLC decides to approve the expansion of the casino facility, the AGLC will advise the licensee in writing it can proceed with construction.

15.2.25 The AGLC may at its discretion refuse to approve a proposed expansion of a licensed casino facility if:

- c) there is a substantial change to, or circumstance affecting the validity of, the information previously provided; or
- d) there is a substantial change to the market.

15.2.26 If the AGLC refuses to approve a proposed expansion under the authority of Subsection 15.2.25, the casino facility licensee will be advised in writing of the:

- a) reason(s) for the decision; and
- b) process to appeal the AGLC's decision (see Subsection 15.2.27).

15.2.27 If the licensee disagrees with the decision of the AGLC, it may appeal the decision in writing as follows:

- a) The AGLC's Vice President of Regulatory Services will consider the letter of appeal from the licensee. If the appeal is rejected, the licensee will receive a letter outlining the reason for the decision.
- b) If the licensee disagrees with the decision of the Vice President of Regulatory Services, it may further appeal the decision in writing to AGLC's Chief Executive Officer.

15.3.6 The physical location of the proposed new facility is submitted as part of the application. It must remain unchanged throughout the process.

15.3.7 The AGLC does not require municipal land use, zoning and development approval for the purposes of the Initial Assessment. Applicants should defer seeking appropriate municipal approvals until advised in writing by the Board as provided for in Subsection 15.3.29.

15.3.8 Upon receipt of a proposal, which meets all the requirements in Subsection 15.3.5, the AGLC will assess and validate the information to determine whether the proposed relocation has merit.
