SUBJECT: NEW GAME APPROVAL PROCESS

POLICY

- 1.8.1 New games considered for introduction to the province includes gaming activities that possess features or methods of delivery that are deemed to be significantly different from the features or methods of delivery of gaming activities currently available in the province.
- 1.8.2 New games do not include minor variations of existing technologies or gaming activities. A minor variation of an already approved bingo game is not considered a new game.
- 1.8.3 The approval process for a new gaming activity involves four major steps, as follows:
- a) Step One – Initial Assessment
 - i) The proponent of a new activity must provide to AGLC a business plan and other required information which will allow AGLC to arrive at a sound preliminary assessment related to the viability of the proposed new game.
 - ii) AGLC will evaluate the proposal using criteria such as:
 - compliance with the requirements of the *Criminal Code (Canada), Gaming, Liquor and Cannabis Act* and Gaming, Liquor and Cannabis Regulation;
 - demand from consumers (market potential) for the proposed new game;
 - benefits to be derived for charitable, non-profit, public or community-based initiatives;
 - requirement to deliver the proposed new game with integrity and in a socially responsible manner;
 - feasibility of the proposed new game when all costs are considered;
 - impact the proposed new game will have on other existing gaming activities; and
 - manner in which the proposed new game would be delivered, including the proposed location from which the new game is to be conducted or delivered.

SUBJECT: NEW GAME APPROVAL PROCESS

- iii) The proposal must clearly indicate how the revenue from the new game would be divided among prizes, expenses and ultimately proceeds to charity.
- b) Step Two – Obtaining Community Views
 - i) AGLC will determine the type and extent of public input required regarding the proposed new game. Such input required may range from public consultations or the express consent of a community to considering community objections. The decision in this regard will be affected, among other considerations, by the proposed new game, including its type, where it would be available, financial benefit/cost, and impact on existing gaming activities.
- c) Step Three – Final AGLC Review
 - i) AGLC will forward the proposal and results of its final review including results from public input, for review and consideration by the Board of AGLC.
- d) Step Four – Approval
 - i) The Board of AGLC will consider the proposal and results of AGLC’s review. The new game will be authorized subject to the Board’s approval.

SUBJECT: CONDUCT OF BINGO EVENTS

POLICY

3.13.1 The conduct of an event is the sole responsibility of the licensed charity and this responsibility cannot be delegated.

3.13.2 Based on demonstrated charitable demand, ability of charitable groups to provide volunteers to adequately staff events and consideration of profitability requirements, a licensed facility may be approved to conduct up to 14 events per week.

3.13.3 AGLC may consider applications from existing facility licensees wishing to access more than 14 events per week at the same facility. Each application will be considered on its own merit and within its own community setting, however, the application must:

- a) represent the combining of two or more facility licensees in the same region or market area for the purpose of better utilizing a licensed facility, reducing expenses and generating higher returns to charities; or
- b) satisfy AGLC that the addition of more events:
 - i) would provide equitable access to eligible charities who currently do not have access to events;
 - ii) would result in higher proceeds to licensed charities;
 - iii) would not add events to an already saturated market; and
 - iv) would not in any way negatively impact the operations of another licensed facility within the same region or market area.

3.13.4 The licensed charity, through its volunteer bingo chairperson (with the assistance of the hall advisor) must:

- a) decide upon all matters relating to the conduct of the event;
- b) in case of a dispute or discrepancy determine the winners; and
- c) verify prize amounts and ensure all prizes are paid.

3.13.5 An event must be conducted in compliance with:

- d) the Gaming, Liquor and Cannabis Regulation;
- e) the Commercial Bingo Handbook;
- f) the Charitable Gaming Policies Handbook;
- g) Board policies established under the legislation;
- h) any special conditions required by AGLC; and
- i) the facility licensee's rules of play and house rules.

3.13.6 Events may start at any time during a given day, and may end at a specified time on the same day or at a time extending into the following day. Each event will be recorded as having occurred on the day on which it starts.

3.13.7 Each event starts with the calling of the first ball of the first game in the facility licensee's bingo program, and ends when the prize for the last game of the bingo program has been verified.

SUBJECT: ALLOCATION AND SCHEDULING OF BINGO EVENTS

POLICY

- 3.14.1 The bingo association is responsible for the fair and acceptable allocation and scheduling of events to its respective licensed charities at its designated licensed facility.
- 3.14.2 Two (or more) groups may be licensed to work the same event as follows:
- a) each group is responsible for an equal proportion of the required number of volunteers and the event expenses, and will receive an equal proportion of the event proceeds; and
 - b) the number of groups selected on EMS will be two (or more if applicable). Each group's licence number must be selected on EMS to ensure the correct information appears on each group's financial report.

POLICY

4.6.1 The licensed charity and its volunteers must comply with the following:

- a) volunteers must not be paid from gaming proceeds or from any other source of revenue for their services. See the Charitable Gaming Policies Handbook (Subsection 5.23.6) for detailed information;
- b) volunteers in the mandatory volunteer positions identified in Sections 4.2 of these policies must be bona fide members of the licensed charity as defined in its bylaws;

Licensed charities whose members are disabled may accept outside volunteer help for all positions. Any non-members who work as volunteers must be known to the licensed charity.

Note: This provision is intended to allow licensed charities greater flexibility in raising funds to support their approved charitable objectives. However, it is not intended to provide an opportunity for a non-licensed charity to work at an event in return for a donation from the licensed charity; this type of arrangement is prohibited;

- d) individuals whose purpose to work at events is related to the Fine Option Program or the Alternative Measures Program may not be used as volunteer workers;
- e) the paid staff of the licensed charity may work as volunteers if:

The following conditions apply:

- i) regarding licensed charities that do not show up, facility licensees must show that they have procedures in place to contact licensed charities to confirm their scheduled event within two months in advance of the event (e.g., by phone, email or regular mail);
- ii) regarding a charity's suspension or cancellation of its bingo licence, the facility licensee must have a record of the date the charity's bingo licence was suspended or cancelled and the date/time and way in which the bingo association was made aware of the suspension or cancellation;
- iii) there must be at least one volunteer of a member licensed charity present at the event and working as the bingo chairperson in the cash cage. This licensed charity will be recorded as the charity working the event and will receive the pool allocation for that event; and
- iv) every effort should be made to obtain volunteers to work at the event; however, if this is not possible, workers (who may not be known to the licensed charity) may be paid from the bingo association's surplus expense revenue held in the association expense bank account or non-gaming funds.

 - f) who are under the age of 12 are prohibited from handling cash (including the payment of prizes), but may work in the position of bingo checker or assist with other event duties (e.g., cleaning tables, emptying garbage cans, etc.). See Section 3.10 for more policies regarding minors;
 - g) with the exception of sellers/checkers, must work one position at a time. If a volunteer is to fill a second position, the accounting procedures for the first position must be completed and verified before filling the second position;

 - i) if capped, the facility licensee has the option of establishing two separate prize pools (one main pool and one reserve pool). Once the total value of the two pools reaches the capped maximum, the first prize pool must be played off within 14 days of the maximum being reached; and

ii) when a progressive prize pool is won at an event, the game contribution from that event may be paid to the player in cash and the remainder (accumulated portion of the prize pool) may be paid to the player by cheque written on the progressive prize bank account; alternatively the entire amount may be paid by cheque written on the progressive prize bank account.

Note: revenue from uncashed progressive prize cheques belongs to the member groups of the association;

iii) if revenue from the event is sufficient to pay the full progressive prize pool in cash, the facility licensee has the option of writing a cheque for the value of the accumulated portion from the progressive prize bank account to the bingo revenue bank account and may deposit this cheque in place of the event revenue (bills and coins). The event revenue may then be used to pay the player the accumulated portion in cash.

Note: The cheque will replace the event cash deposit in whole or in part depending on the amount of cash available from the event revenue and the amount of funds needed to pay the accumulated portion of the progressive prize in cash;

SUBJECT: BINGO PROGRAM

- iv) in addition to the EMS progressive prize reporting requirements, a manual control form must be maintained for each progressive game prize pool detailing the opening balance of each prize pool, the event game contribution, event payout(s) (if applicable), method of payment (cash and/or cheque) and the event closing balance. SUBJECT: RULES OF PLAY

POLICY

5.4.1 This section contains the requirements on rules of play, including:

- a) AGLC standard rules of play, which apply to all facility licensees; and
- b) facility licensee rules of play, which govern the specific bingo program of a licensed facility.

AGLC STANDARD RULES OF PLAY

5.4.2 Only bingo games using the following format will be licensed:

- a) a ball is randomly selected from 75 ping pong type balls. Each ball is printed with a letter from the word BINGO, and a number from "1" to "75" as follows:

<u>B</u>	<u>I</u>	<u>N</u>	<u>G</u>	<u>O</u>
1	16	31	46	61
to	to	to	to	to
15	30	45	60	75

- b) one additional bingo ball may be added to the blower for the purpose of conducting fireball schemes. The addition of this ball must be approved by AGLC and comply with Subsection 5.1.15.

5.4.3 If included in the bingo program, the linked game must be operated according to these policies and the approved operations manual for the linked bingo game.

5.4.4 Before an event begins the caller, bingo chairperson or paymaster, and a player must check the bingo equipment to ensure:

- a) the bingo equipment is operating properly;
 - i) the bingo blower must be fully functioning during all events; the manual drawing of balls from the bingo blower is strictly prohibited;
- b) all 75 bingo balls are in play; and
- c) none of the bingo balls is a duplicate ball.

SUBJECT: RULES OF PLAY

- 5.4.5 Only players in attendance at the event may participate in the bingo program.
- 5.4.6 Only players with proof of admission may play. Proof of admission must be visible at all times. The facility licensee or licensed charity may request this proof before allowing a player to continue to play or to claim a prize.
- 5.4.7 Only cards bought or issued at the event may be played. An exception is allowed for cards awarded by the licensed charity to players at the event.
- 5.4.8 Before a game is played, the caller must announce the type of game being played. For special games, the key rules of play must also be announced.
- 5.4.9 To call a ball, the caller must:
- a) turn the ball in the cradle/chute to clearly display the letter-number combination on the TV monitors;
 - b) announce the letter and number on the ball;
 - c) then remove the ball from the cradle/chute and place it into the corresponding hole in the ball pocket tray; and
 - d) in the exceptional circumstance where video equipment is inoperable or cannot be used, clearly display the letter-number combination on the ball to players. (Also see Subsection 5.4.11.)
- 5.4.10 A ball is considered “called” when the complete letter and number combination of the ball has been announced by the caller. If there is a dispute regarding balls called, the master board (ball pocket tray) in front of the caller shall prevail. The flashboards are an aid to the game and are not an official record of the numbers called.
- 5.4.11 In the exceptional circumstance where a pre-call of numbers occurs for a game that could not be video/audio recorded (e.g., due to power or equipment failure):
- a) a volunteer worker must be present on the stage to verify the letter and number of each ball as it is drawn and called;

SUBJECT: RULES OF PLAY

- b) the volunteer will complete a Ball Verification Sheet as the balls are called, which must be kept as part of the event records; and
- c) the caller must sign the Ball Verification Sheet to certify it is correct.

5.4.12 A new ball must not be drawn from the cradle/chute until:

- a) the previous ball has been called; and
- b) the called ball has been placed in its corresponding hole in the ball pocket tray.

5.4.13 The licensed facility's house rules or its rules of play must not require that players have the last number called to win a prize for a bingo game or bingo scheme. That is, a player may declare bingo for a winning pattern after other numbers have been called during the game in play. Exceptions to this rule may exist for progressive bingo games and schemes (See Subsections 5.1.10 h) and i).

5.4.14 When a bingo is declared, the caller must:

- a) stop play by announcing a bingo has been declared and that no more numbers will be called;
- b) where the blower is turned off to verify a bingo, the ball next in line in the cradle/chute (i.e., the next number to be called) must remain there and be the next number called;
- c) announce the type of game being checked;
- d) announce the number of bingos recognized, their approximate location in the hall, and ask (the first time) if there are any other bingos;
- e) ask (a second time) whether there are any more bingos and pause (at least three to four seconds) to recognize any;
- f) announce the number of bingos which have been recognized, state that only these bingos are eligible for prizes, and that the game is closed; and
- g) where there is a discrepancy on a declared bingo, and the player's eligibility to win depends upon the number of balls called, the caller must, with the assistance of a neutral player

SUBJECT: RULES OF PLAY

or licensed charity volunteer, count the number of balls in the ball pocket tray to verify that the number of balls in the ball pocket tray match the number of balls displayed on the flashboard as being called:

- i) if the number of balls in the ball pocket tray match the number of balls displayed on the flashboard and are within the required number of balls to win the specified prize, the prize will be awarded to the winner(s); and
- ii) if the number of balls in the ball pocket tray does not match the number of balls displayed on the flashboard and required to win the prize, the player(s) must be given the option to verify the number of balls in the ball pocket tray, which must prevail in determining whether or not a prize has been won.

5.4.15 All paper and e-dauber bingos must be verified through the EMS verification module. The verification call-back process must be conducted as follows:

- a) Seller/Checker:
 - i) identifies the declared bingo(s) to the caller;
 - ii) for paper regular games, must verbally give the caller the card number(s), and card colour or level;
 - iii) for paper special games, the seller/checker must verbally give the caller the card face number(s); and
 - iv) for e-dauber cards, must verbally give the caller the card face number(s);
- b) the caller must enter the card number(s) into the verifier so that the card face(s) may be displayed on the TV monitors; and
- c) all verified bingo cards must be displayed on the TV monitors for at least three seconds for players to view.

SUBJECT: RULES OF PLAY

- 5.4.16 In the exceptional circumstance where the EMS verification module cannot be used (e.g. due to an equipment failure), a manual call back must take place. The verification procedures to be used must be identified in the facility licensee's house rules. The procedures must include:
- a) for all paper games, the checker must provide the caller with the colour and series number of the bingo card, then take the bingo card and put it in front of a player at another table who will assist in verifying that the numbers called back by the caller form the winning pattern on the player's card, thereby validating the declared bingo;
 - b) for all e-dauber games, the checker will provide the caller with the card pay level as indicated on the e-dauber card and then, assisted by a neutral player (at the location of the e-dauber unit), will verify that the numbers called back by the caller form the winning pattern on the player's e-dauber bingo card face, thereby validating the e-dauber bingo; and
 - c) if the prize value of the game exceeds \$500 or where there is a pre-call, the bingo card(s) must be checked against the master book by the bingo chairperson, paymaster or a hall advisor or assistant hall advisor.
- 5.4.17 The series number must be visible and readable on a declared winning paper card or the bingo must be rejected.
- 5.4.18 For any game in which the single bingo prize is \$500 or more (see Subsection 5.4.16 e)) the seller/checker must take the paper card(s) to the caller's station or the cash cage for verification by the caller or hall advisor. The caller/hall advisor must inspect the card(s) for any obvious signs of tampering and/or alterations prior to the prize being awarded.
- 5.4.19 For all progressive games, when the progressive prize is won and eligibility of the winner(s) confirmed, the bingo chairperson (or designate) must present the cheque and/or cash representing the progressive prize to the winner(s); if the prize is cash, then it must be physically counted in front of the winner. The winner(s) must be required to sign (provide their signature and print their name, address and phone number) on the progressive prize pool control

SUBJECT: RULES OF PLAY

sheet or on a separate receipt confirming the winning player(s) has received the prize. The event advisor must also ensure that, if a cheque with the prize amount is awarded, the cheque number and amount are recorded on the progressive prize pool control sheet.

5.4.20 Cards may be used for a single game, or for two or more successive games in a series.

- a) called balls must remain in the ball pocket tray until the final game in a series is completed; and
- b) after all bingos are checked and verified, the caller must clearly state that the game series is closed, and return the balls to the blower.

5.4.21 Declaration of bingo:

- a) it is a player's responsibility to make himself or herself heard by the caller to stop the game;
- b) when a caller stops the game, the caller will acknowledge the player's or players' bingo(s) and call for further bingos as described in Subsection 5.4.14. When the number of winners eligible for prizes is announced, the caller will declare the game closed and proceed to verify the declared bingo(s) as stated in Subsections 5.4.14 to 5.4.19; and
- c) if a player declared a bingo and the bingo was determined not to be a valid bingo, the caller must re-open the game and, prior to calling another number, ask if any other player has a bingo to declare. This includes a player whose bingo may have been initially disqualified due to a late declaring of their bingo.

5.4.22 Two of the most common issues that arise during the process of declaring a bingo are described here, with resolutions:

- a) Issue: the caller did not acknowledge a declared bingo because he or she could not hear the player declare the bingo and proceeded to call another number.

Resolution: the next number called is valid. The player who had a bingo on the previous number may declare bingo again (the last number not required). However, the player may have to share the prize if another player declared a bingo on the next number which was called.

SUBJECT: RULES OF PLAY

- b) Issue: multiple bingos were declared, an usher is standing beside each player, and for some reason the caller did not acknowledge one of the bingos.

Resolution: the caller must clarify with the usher and other players in the vicinity whether the player's bingo was declared on time or was late. Once clarified, the caller must refer and explain the matter to the bingo chairperson, who must decide (in consultation with the advisor) whether the player will receive a portion of the prize.

Note: If a complaint is registered with AGLC regarding a bingo chairperson's decision about a declared bingo, that decision may be subject to review by AGLC. If it is determined that the complaint is valid, the facility licensee, on behalf of the licensed charity, must pay the player the amount owing as directed by AGLC.

FACILITY LICENSEE RULES OF PLAY

- 5.4.23 The facility licensee must establish and maintain rules of play governing the bingo program it has established for licensed charities, including bingo games, schemes, door prizes and promotions.

- a) the facility rules of play must be:
- i) consistent with these policies;
 - ii) always kept current; and

 - ii) when a late bingo is called on any game involving a consolation prize, whether the player can receive the consolation prize without another number being called;
 - iii) how the main prize and consolation prize are calculated when it appears the consolation prize will be of higher value than the main prize;

6.4.19 If the facility licensee wishes to change the type, colour or number of tickets per unit being sold, the pull ticket container must be sold out completely or as close to being sold out as possible before changing the unit (see Subsections 6.4.4 h), 6.4.6 g) and 6.10.2)).

- f) total amount of purchase.

6.6.6 Pull ticket licence fees are \$5 per unit.

6.6.7 Facility licensees must submit pull ticket licence fees within seven days of the end of the month as follows *(Amended Nov 2020)*

- a) licence fees must be paid based on the total number of pull ticket units which were sold during the month; and
- b) on a monthly basis, the bingo association must submit the licence fees by cheque from the bingo association's expense operating account (payable to Alberta Gaming, Liquor & Cannabis). As back-up to this submission a Monthly Pull Ticket Sales (Deposit) Report Form 5438 (see Subsection 12.1.1) must be completed, maintained at the licensed facility and be made available to AGLC upon request;

SUBJECT: POOLING

POLICY

6.7.1 Consistent with Subsection 8.1.6 for a licensed facility, the pooling of pull ticket proceeds is mandatory for all licensed charities conducting pull ticket sales at licensed bingo facilities.

6.7.2 The responsibility to administer the pull ticket pool rests with the executive of the bingo association (see Subsection 8.1.6 g). *(Amended Nov 2020)*

6.7.3 *(Deleted Nov 2020)*

6.7.4 Accounting of pull ticket units in each monthly pool period must be completed as follows:

- a) only units which have been sold and deposited or prepared for deposit during each month must be included in each monthly pool period; and
- b) revenue from sales representing a partial unit deposit must be retained by the seller and be included in the pool in the month the full unit net revenue is deposited.

Note: Revenue representing sales of a pull ticket unit which was sold out during a month must be deposited or prepared for deposit prior to the end of that month. This will ensure that each licensed charity that held a bingo event(s) during the month is fairly compensated for sales/deposits which occurred during the month in which they conducted the event(s).

6.7.5 AGLC will review the pull ticket purchase and sales records to verify the accuracy of its pull ticket revenue; AGLC will notify the facility licensee if any corrections are required. If no corrections are required the bingo association can proceed to deduct the event fee for the pull ticket stream to determine the proceeds to be disbursed to the licensed charities (see Subsection 8.1.6).

6.7.6 *(Deleted Nov 2020)*

6.7.7 The pooled pull ticket proceeds must be disbursed by cheque or bank transfer within 21 days of the end of the pool period. The disbursement may take place from the pull ticket operating/pool bank account or, utilizing the alternate procedure in Subsection 8.1.6 e) ii), from the bingo pooling bank account.

SUBJECT: PULL TICKET FINANCIAL REQUIREMENTS

POLICY

6.8.1 For a licensed facility that sells pull tickets, the bingo association must establish and maintain a Pull Ticket Operating/Pool Bank Account (may be a combined account) as specified in Subsection 8.1.5 a).

- a) sales revenue representing the specified net revenue of each unit (see Subsection 6.8.1 c) must be deposited to this account within three banking days after the sale of the unit(s);
- b) all payments from the account will be made in accordance with Subsection 8.1.5;
- c) pull ticket unit net revenue (unit deposit) from the sale of units and the monthly pull ticket pooling proceeds must be calculated as follows (using as an example a unit of 1,260 pull tickets, sold at \$1/ticket, with a unit prize value of \$800):

i) unit net revenue calculation (an example):

Gross revenue per unit	\$1260
Less unit prizes	\$ 800
Add/Subtract overages/shortages:	<u> 0</u>
Equals unit net revenue	\$ 460*

(*Also equals the unit deposit)

ii) pooling Proceeds Calculation (during the pool period):

Unit net revenue from all sold units
 Less costs of units sold at event
 Less licence fees for units sold at event
 Less additional exclusive costs (e.g. seller(s))
 Less pull ticket event fee
 Equals pooling proceeds (less any pool adjustments)

- d) the facility licensee and hall manager/pull ticket manager will maintain accurate and current financial/inventory and sales records. The two forms, entitled Pull Ticket Inventory and Sales Record Form 5434 and Monthly Pull Ticket Inventory

SUBJECT: PULL TICKET FINANCIAL REQUIREMENTS

Reconciliation Form 5436 must be used (see Section 12 - Forms). If volunteer sellers are used, the hall advisor must also use a pull ticket seller control form.

6.8.2 Within seven days of the end of each month, the association must:

- a) forward the cheque for licence fees and supporting documentation for the month's sales as reported to AGLC Financial Review;

Note: a Monthly Pull Ticket Sales (Deposit) Report Form 5438 must be maintained at the licensed facility for each type of unit sold and deposited throughout the month. This form(s) must be made available to AGLC upon request.

6.8.3 Pooling and distribution of pull ticket proceeds must be carried out within 21 days of the end of the month in which the pull ticket proceeds were pooled and according to Subsection 8.1.6.

SUBJECT: ANNUAL BUDGET AND EVENT FEE

POLICY

8.1.1 Facility licensees must comply with the following requirements when preparing and managing their annual budgets and event fees.

- a) A critical function of the facility licensee, on behalf of or as an agent of its member licensed charities, is to prepare a detailed and accurate annual budget for approval of licensed charities, and to monitor its expenses throughout the year against its approved annual budget.
- b) The annual budget:
 - i) is the means by which the facility licensee may establish a fair and reasonable event fee that each member licensed charity must pay to cover the expenses of its events during the budget year; and
 - ii) must accurately reflect the licensed charity's costs of operating events and the expected revenues to offset costs and generate proceeds.
- c) The facility licensee must provide each licensed charity with an annual budget that is structured to include bingo and, if applicable, pull ticket sales.
- d) The annual budget must:
 - i) be approved by the facility licensee's member licensed charities.
 - ii) not be charged as a percentage of gross revenue;
 - iii) not include the costs of operating or providing non-gaming space, supplies or services except as provided for in Subsections 8.1.2 a) vi) and vii);
 - iv) be reasonable and reflect expenses that the licensed charity will incur to conduct its events in the licensed facility;
 - v) align with the fair market value of the space and services being provided; and
 - vi) be sent to AGLC at least 60 days prior to the end of the facility licensee's fiscal year end.

SUBJECT: ANNUAL BUDGET AND EVENT FEE

- e) An event fee (or advance) will be collected for each applicable gaming stream (bingo and pull ticket). See Subsection 8.1.2.
- f) The common expense portion of the event fee will be allocated to the bingo and pull ticket streams based on the proportion of the previous year's net sales for each stream.
- g) The facility licensee event fee, assessed by gaming stream, must be approved by AGLC. The approved event fee will be effective at the start of the facility licensee's new fiscal year end.
- h) The event fee for bingo will be assessed and recorded in EMS on an event basis. The event fee for pull tickets will be assessed on a per event basis and recorded in the pull ticket pool in EMS periodically throughout the month.
- i) The proposed annual budget and event fee breakdown that is submitted to AGLC for review must include the following:
 - i) the total number of events to be conducted including a breakdown of the number of events by time slot;
 - ii) an itemized annual budget detailing the expenses being charged in the event fee; and
 - iii) minutes of the meeting at which the bingo association's licensed charities approved the event fee;

On request, AGLC may also require the submission of the detailed general ledger or trial balance for the current and/or prior fiscal year.

- j) During the budget year, a bingo association may submit a proposal to AGLC to decrease or increase the approved event fee. A proposal to increase the event fee requires detailed explanation. Back-up documentation to support the request must be submitted on request by AGLC. If approved, the new event fee will take effect on the first of the month after approval was granted.
- k) Increases to the annual budget/event fee exceeding five per cent must be supported through a motion at a bingo association or bingo association executive meeting, which

SUBJECT: ANNUAL BUDGET AND EVENT FEE

authorizes the increase. A copy of the minutes must be attached to the request for approval.

- l) Within 120 days of the end of the bingo association's fiscal year, any surplus resulting from the actual annual expenses being less than the annual budget must be refunded to the licensed charities. The facility licensee must refund to each charity, by cheque or bank transfer, its portion of the surplus funds. Each licensed charity's portion of the surplus funds must be calculated according to the number of events the licensed charity conducted during the year the surplus occurred.
- m) If the facility licensee is operating bingo or pull ticket sales in a deficit for three consecutive months, the facility licensee must immediately notify AGLC of the deficit; the facility licensee must not, unless approved by AGLC, assess the licensed charities additional charges to cover the deficit.
- n) Letters of a financial nature submitted to AGLC must be signed by at least two executive members of the bingo association.
- o) Expenditure proposals throughout the budget year that:
 - i. are \$10,000 or less in a single transaction or series of related transactions may, subject to the association's internal expenditure approval requirements, be authorized by the hall manager and supported through detailed receipts maintained with the financial records.
 - ii. exceed \$10,000 in a single transaction or series of related transactions must be approved through a motion and vote at a meeting of the bingo association executive and recorded in the meeting minutes. If the nature of the expenditure also requires AGLC approval (e.g. facility reserve fund proposed expenditures - also see Subsection 8.1.2 b) ii)), a copy of these minutes must be attached to the request for approval by AGLC.

POLICY

8.1.2 This subsection covers the allowable expenses that may be assessed against the gaming revenue generated during each event.

- v) Bingo associations may apply for and, based on a demonstrated need, be approved for a concession facility expense allowance. The approved allowance will equal the lesser of up to 50 per cent of, or the breakeven on, the expenses noted above and marked with a double asterisk (**). The association must supply AGLC with all information that is deemed necessary to assess the request. Supporting documentation includes but is not limited to:
- Concession financial statement; and
 - Lease agreement or ownership arrangement in regards to the facility.

 - ii) Facility Reserve Fund: the establishment and collection of gaming revenue into a facility reserve fund requires association executive and AGLC approval. Reserve fund

SUBJECT: EXPENSES

expenditures of \$20,000 or less per single transaction or series of related transactions totalling \$20,000 or less must be approved as prescribed in Subsection 8.1.1 o) and may occur without prior AGLC approval. Single transaction reserve fund expenditures or a series of related transactions totalling more than \$20,000 must be approved by AGLC prior to the expenditure(s) occurring. The association executive and AGLC may only approve facility reserve funds to be used to meet significant future costs related to:

- Bingo related equipment and furniture;
- the gaming portion of interior facility upgrades and/or renovations;
- approved structural changes specific to building structure integrity that affect the gaming portion of the building envelope, (e.g. roof repairs or replacement, reinforcement of exterior walls, or other items as approved by AGLC). The total costs of such changes must be allocated between gaming and non-gaming activities (this is particularly important when the building envelope contains the licensed bingo facility as well as one or more other separate businesses or organizations that, for example, share the building);

Note: A cost allocation between gaming and non-gaming may not be required if, for example, repairs are made to that part of a roof which covers the bingo facility portion of the building envelope, even though the bingo facility floor space costs may be allocated between gaming and non-gaming activities. In this example, up to 100 per cent of gaming revenue may be approved for the roof repair over the bingo facility portion of the building envelope.

- building fundamentals such as furnace repairs/replacements, water heater repairs or replacements and other building fundamentals

SUBJECT: EXPENSES

which, due to their nature, may serve both gaming and non-gaming activities in the bingo hall. AGLC may approve gaming revenue to be used to cover 100 per cent of the gaming portion of these costs.

- event facility reserve fund contributions must be reported through EMS using an approved AGLC expense ID and must be held in a separate bank account and/or term deposit. Facility reserve funds not used for the above purposes must be returned to the licensed charities. Funds collected and not used within a five-year period are subject to further review by AGLC.

iii) Concession Equipment Allowance: bingo associations may request approval from AGLC for a concession equipment allowance of up to 50 per cent to offset the purchase or maintenance of major concession equipment; the bingo associations must supply AGLC with all information that AGLC deems necessary to properly assess the request. A specific dollar or cap amount must be identified along with the amount to be collected at each event; these amounts must be approved by AGLC prior to collecting any funds. As an alternative to establishing an amount to be collected at each event, and with prior AGLC approval, the facility reserve fund may also be used to pay for the concession equipment allowance.

iv) Association Conferences and Travel: Facility licensees with memberships in Bingo Alberta may include in their event fee structure reasonable costs of sending bingo association executive members and hall managers to meetings of Bingo Alberta. Travel costs of sending the association's hall manager to the Hall Manager's Association of Alberta may also be included in the event fee. The annual travel costs may also include sending two individuals to a bingo-related conference or seminar within North America or to send one individual to two separate bingo-related conferences or seminars within North America.

SUBJECT: EXPENSES

- v) Staff Training: the annual budget may also include the costs of sending paid staff to courses that are beneficial or required for the conduct of the bingo association's bingo gaming business.
- vi) Advertising and Promotions: see Section 8.4.
- vii) Bingo Licence Fees: the facility licensee pays bingo licence fees in advance and may then collect the bingo licence fees from the licensed charities with their event fee.
- viii) Miscellaneous: this category is for those expenditures that may not be specifically listed in Subsection 8.1.2, e.g. bank charges not already recorded as a pool expense. Detailed explanations of expenditures included in this category are required.
- ix) Operating Reserve Fund: at start-up of the operating reserve fund, a specific dollar amount must be identified, which, when accumulated, will not exceed 25 per cent of the approved event fee budget for gaming related operating costs. When the target amount is accumulated, the association must advise AGLC of the reduction in the event fee and the date that the reduction will take effect (this could be stated up front at the time of the original budget/event fee submission). Associations can replenish the operating reserve fund by contacting AGLC and requesting an amendment to their event fee for a period required to replenish the fund. The operating reserve fund is not included in the calculation of a surplus at fiscal year-end; however, the balance must be reported in the annual budget/event fee submission for the next year.
- c) Expenses other than those listed in Subsection 8.1.2 a) may be submitted to AGLC for consideration. AGLC approval is required before the proposed expense is included in the event fee and charged to the licensed charities.

SUBJECT: EXPENSES

- d) The following are not considered charitable event expenses and must not be included in the event fee or be paid for with gaming funds:
- i) liquor, meals or hospitality for paid staff, volunteers (other than what is allowed for volunteers in Subsection 8.1.2 g)) or players;
 - ii) entertainment for suppliers of facility, supplies and services;
 - iii) personal expenses of bingo association executive officers, board of directors and volunteers (other than those allowed for volunteers in the Charitable Gaming Policies Handbook);
 - iv) any non-gaming activities including the direct costs of operating a food concession, gift shop or lottery booth;
 - v) the assessed concession share of the:
 - monthly facility operating costs (see Subsection 8.1.2 b)); and
 - equipment costs (see Facility Reserve Fund in Subsection 8.1.2 b) ii)).

Note: Any third party concession rental or lease revenue must be deposited to the association expense operating bank account. The bingo association will make payments for expenses related to the concession facility expense allowance from this same account. Any additional shortfall related to these expenses must be made up from non-gaming funds.

- e) Linked Game Expense:
- i) Linked game expenses approved by AGLC must be charged at the event level; and
 - ii) must be recorded separately on EMS.

SUBJECT: EXPENSES

- f) Volunteer Concession Expense:
- i) Volunteer concession expense is an eligible bingo expense that is included in the exclusive portion of the event fee for bingo, and must be paid by the licensed charity at the bingo event or through the bingo association's bingo pool account. Volunteer concession expenses will not be included in the monthly profitability calculation for bingo.
 - ii) Concession expenses incurred by volunteers at the event must comply with the following:
 - concession items must be purchased for and consumed by volunteers of the licensed charity during the time and within the facility that the bingo is being conducted;
 - licensed charities are not required to purchase food or refreshments from the bingo facility concession. Licensed charities may arrange for food and refreshments to be brought into the hall;
 - all expenditures must be supported by a receipt;
 - the total concession expense must not exceed \$10 per volunteer working a morning or late night event, and \$16 per volunteer working an afternoon or evening event. The number of volunteers required is determined by the bingo facility licensee and is stated in the approved bingo program;
 - any concession expenses over and above the amounts permitted in Subsection 8.1.2 f) ii) are the responsibility of the individual volunteer(s);
 - licensed charities or the facility licensee may set their own concession policy to assist with the control of this expense (e.g., no concession expenses are allowed or the maximum per volunteer is \$5 per event); and

SUBJECT: EXPENSES

- volunteers may be given a coupon worth a fixed dollar amount. The coupon may be used to purchase concession items. Volunteers may not present the coupon to the concession for a cash reimbursement.
- iii) The event's volunteer concession expense must be recorded separately on EMS.

SUBJECT: BINGO EVENT FINANCIAL/INVENTORY CONTROLS

POLICY

8.1.3 Requirements for bingo event financial/inventory controls are as follows:

a) The facility licensee must maintain a rigorous financial/inventory control system to account for all the revenues and costs of holding events, including the inventory, sales, prizes, giveaways to players, expenses and proceeds of events. All transactions must be recorded on the control forms. The financial/inventory control system must be organized as follows:

i) Handling of cash at the event level:

- all transfers of cash among paid staff and/or volunteers must be verified by physical count, witnessed, recorded and signed off (initialed);
- physical cash counts must be witnessed, recorded and signed off;
- all entries on the financial/inventory control forms must be completed in non-erasable ink (pencil must not be used);
- amendments/corrections to figures on control forms must be made by striking through the original entry ("white out" must not be used) and writing the corrected amount beside the original entry; and
- all amendments/corrections made to event financial/inventory control forms must be verified by physical count, witnessed, recorded and signed off.

ii) Inventory control for bingo cards/supplies:

- all transfers of bingo cards between the licensed charity and the facility licensee must be verified by physical count, witnessed, recorded and signed off;
- all transfers of bingo cards between paid staff and/or volunteers must be verified by physical count, witnessed, recorded and signed off;

SUBJECT: BINGO EVENT FINANCIAL/INVENTORY CONTROLS

- for supplier full bundles, a count of each full bundle is acceptable;

SUBJECT: AUDITED FINANCIAL STATEMENT REQUIREMENTS

- e) Financial statements must be prepared on an accrual basis.
- f) Without limiting the information contained therein, year-end financial statements must include all of the following:

Statement of Revenues and Expenditures

- i) Revenues: there must be a clear distinction between gaming and non-gaming revenues.

- Gaming revenues are any funds paid to the bingo association by its members on an event fee basis and interest earned on funds held in gaming accounts.
- Amounts included in the event fee for an operating reserve fund or facility reserve fund must be appropriated from retained earnings. Funds collected during the year for the operating reserve fund and facility reserve fund must not be included when calculating surplus to return to members. Cash held for such funds must be recognized as restricted cash on the balance sheet and interest earned must be allocated to the corresponding fund.
- Non-gaming revenue is all other forms of income. These must be broken down into the various segments, including but not limited to:
 - sale of merchandise, ink daubers, food, and beverages (or commissions from sales);
 - sale of advertising space either in the hall or publications distributed by the association; and
 - membership fees or fines to members for breaches of bylaws.

- ii) Expenditures: there must be a clear distinction between gaming and non-gaming expenses.

- Gaming expenses must be reported utilizing the same categories as the association's annual budget/event fee submission.
- Expenses to be included in the event fee are listed in Subsection 8.1.2 a).

SUBJECT: AUDITED FINANCIAL STATEMENT REQUIREMENTS

- See Subsection 8.1.2 b) for conditions on event fee expenses.

- Pre-pays: these represent expenses paid in advance for the subsequent periods.
- Deposits: those either of a refundable nature or long-term expenses that are paid in advance.
- Accounts receivable: e.g., accrued interest receivable and due from members.
- Fixed assets: account separately for office equipment, bingo equipment, and lease hold improvements. Fixed assets are not amortized over their estimated useful life but instead expensed in the year purchased as they are considered distributable funds to the members.

- Accounts payable and accruals: represent expenses and current assets acquired but not paid until after the year end.
- Payroll deductions payable: these may be included in accounts payable.

SUBJECT: AUDITED FINANCIAL STATEMENT REQUIREMENTS

- Due to members: Subsection 8.1.1 m) states: "Within 120 days of the end of the bingo association's fiscal year, any surplus resulting from the actual annual expenses being less than the annual budget must be refunded to the licensed charities." - Loans payable: may be required because of equipment acquisitions, leasehold improvements, or extensive start-up costs.
- Member loans payable (non-gaming): Member contributions are funds paid by new members of the bingo association which are repaid to the members upon leaving the bingo association. Notes to the financial statements must disclose the names of each member and amount of contributions owing to that member.

v) **Equity:**

- Equity in fixed assets: equals the total of fixed assets.
- Surplus (members' equity): represents equity of members in the bingo association.

- xi) Additions: current year's excess of revenues over expenditures; prior year's adjustments.
- xii) Deductions: current year's excess expenditure over revenues; prior year's adjustments.

Management Letter

- xv) The external auditor must provide a management letter as an audit supplement, and as a product of the audit results. A copy of any management letter shall be forwarded to AGLC. The letter is addressed to the bingo association and provides comments on:

SUBJECT: GAMING PROFITABILITY REQUIREMENTS

POLICY

- 8.3.1 As stated in Subsection 1.3.1 c), a guiding principle for gaming in Alberta is that “the financial return to eligible charities from charitable gaming is to be maximized for the benefit of charitable and religious groups, the programs or activities they deliver and the communities in which those programs or activities are undertaken.”
- 8.3.2 All facility licensees must comply with these profitability requirements:
- a) a positive contribution to the charity pool from the bingo game over a specified period of time (see Subsection 8.3.6). A positive contribution to the pool is calculated as gross sales (plus cash overages/less cash shortages), less prizes, less total approved expenses;
 - b) if applicable, a positive contribution to the charity pool from pull ticket sales over a specified period of time (see Subsection 8.3.6). A positive contribution to the pool means gross sales (plus cash overages/less cash shortages), less prizes, less total approved expenses; and
 - c) if applicable, a positive contribution to the charity pool from KENO through the charity commissions. *(Amended Feb 2021)*
- 8.3.3 A new facility licence applicant must demonstrate through its business plan that each gaming stream conducted within the facility will meet the profitability requirements.
- 8.3.4 The facility licensee and the approved hall manager must ensure that the structure of the bingo program, rules of play and the annual budget/event fee (or advance system of paying expenses) will comply with the profitability requirements in Subsection 8.3.2 over the specified period of time (see Subsection 8.3.6).
- 8.3.5 The facility licensee and the hall manager must regularly monitor gaming operations for each gaming stream throughout the term of the facility licence to ensure compliance with the profitability requirements in Subsection 8.3.2. Where it appears that compliance with the profitability requirements is in question, the facility licensee and hall manager must, within the provisions of these policies, make the necessary operational changes to comply.

SUBJECT: GAMING PROFITABILITY REQUIREMENTS

8.3.6 AGLC will review compliance with the profitability requirements for each gaming stream conducted within the licensed facility as follows:

- a) bingo profitability will be reviewed semi-annually throughout the licence period; and
- b) pull ticket profitability will be reviewed semi-annually throughout the licence period;
- c) KENO profitability will be reviewed annually (see Subsection 8.3.2 c)).

If warranted, AGLC may alter the period of review.

8.3.7 With respect to bingo and pull tickets, facility licensees that do not meet the profitability requirements over the review period will receive written notification. Licensed charities conducting events within that licensed facility will receive a copy of the notification. The facility licensee must respond in writing within 30 days of the notice date, outlining operational changes to be implemented to meet profitability requirements. The facility licensee will be provided a 90 day period as specified by AGLC to comply.

8.3.8 With respect to bingo and pull tickets, facility licensees that do not meet the profitability requirements in two consecutive review periods must submit a business plan to AGLC, within 30 days of the notice to submit, specifying steps or actions to be implemented to comply with the profitability requirements:

- a) the business plan must be reviewed and approved by AGLC;
- b) the approved business plan must be presented by the facility licensee within 21 days of AGLC approval at a general bingo association membership meeting to be attended by AGLC; and
- c) the facility licensee will be provided a 90 day period as specified by AGLC to comply.

8.3.9 With respect to bingo and pull tickets, failure by the facility licensee to comply with profitability requirements in three consecutive review periods will result in further actions being taken by AGLC up to and including an incident report being submitted for consideration by the Board of AGLC.

8.3.10 The Board may impose sanctions on the facility licensee for non-compliance with the profitability requirements up to and including cancellation of the facility licence.

8.3.11 With respect to bingo and pull tickets, facility licensees that do not meet the profitability requirements in any two review periods within 18 consecutive months are subject to the process described in Subsection 8.3.8.

Note: See Subsection 8.1.5 e) regarding procedures for negative pool balances. Also see Subsections 8.1.1 b), f), and m) regarding event fees and deficit reporting requirements.

Such user or rental fee is considered to be additional event revenue and must be included in the event deposit (see Subsection 8.1.2 a) ii)).

9.4.28 If there is a discrepancy between an e-dauber and EMS verifier, a ball tray manual callback is required.

9.4.29 Play on an e-dauber that appears to be malfunctioning must be reported immediately to staff of the licensed facility who in turn must immediately report the incident to AGLC (see Subsection 1.6 for contact information) and report the malfunctioning unit to the supplier.

SUBJECT: EXPANSION OF A LICENSED BINGO FACILITY

POLICY

9.7.1 In this section, “expansion” means the significant physical expansion of the gaming and non-gaming areas in a licensed facility as determined by AGLC. Such expansion may include an increase in the building envelope or its outer dimensions (for facility renovations including structural changes see Section 9.9).

Note: A building envelope refers to the outer perimeter of the building in which an existing licensed facility is located and includes space rented, leased, subleased, sold or otherwise provided to others in the same building. A building's outer dimensions refer to the building height as well as its envelope.

9.7.2 Approval for the expansion of an existing licensed facility may only be issued after the requirements in the following steps are completed in order:

1. Initial Assessment;
2. Community Support; and
3. Approval.

9.7.3 If at any time the facility licensee decides it no longer wishes to pursue the application for the expansion of its facility, it must notify AGLC in writing of its decision to withdraw the application.

STEP 1 – INITIAL ASSESSMENT

9.7.4 A facility licensee initiates Step 1 – Initial Assessment by providing to AGLC a proposal in writing for the expansion of an existing licensed facility.

9.7.5 The proposal must contain all required information related to the expansion of the licensed facility, including, but not limited to:

- a) a detailed description of the proposed expansion, including all gaming and non-gaming areas that will be affected;
- b) a market assessment, including:
 - i) a three year revenue forecast, including:
 - gaming and non-gaming revenue sources (e.g., lottery booth, merchandise sales, concession food and beverage services, etc.);

SUBJECT: EXPANSION OF A LICENSED BINGO FACILITY

- methods and assumptions used in the market assessment; and
- a risk assessment;
- ii) a marketing plan describing how both the financial and non-financial goals will be achieved; and
- iii) the estimated economic impact to community (e.g., jobs, tax revenue);
- c) the physical design of the facility, including:
 - i) legal address, site plans, drawings, blue prints, etc.;
 - ii) the impact on traffic and parking in the area;
 - iii) a description of any additional amenities to the bingo, such as a lounge with VLTS;
 - iv) a description of the facility's security features as outlined in Section 9; and
 - v) a breakdown of the construction costs and schedule and details on who is paying for these costs;
- d) a three year business plan, including:
 - i) pro forma financial statements, including:
 - both income and balance sheet statements;
 - revenue streams broken down by gaming and non-gaming activities;
 - operational expenses categorized and described in detail; and
 - a set of statements for the bingo's operations and a combined set of statements for entire facility if other amenities exist in the facility;
 - ii) three year cash flow projections and sensitivity analysis of projections, including the:
 - total financing costs;
 - terms of financing;

SUBJECT: EXPANSION OF A LICENSED BINGO FACILITY

- total capital (construction) and operational costs; and
- if financing is required, who will be the lender, and what are the terms of the credit agreement, etc.

Note: Any change to the legal structure or financial interests of the licensee will be subject to AGLC background checks.

9.7.6 Upon receipt of a proposal, which meets all the requirements in Section 9.7, AGLC will assess and validate the information to determine whether the proposed expansion has merit.

9.7.7 The assessment process will take into consideration factors such as, but not limited to, the following:

- a) impact to charities and gaming proceeds should the proposed licensed facility expansion take place;
- b) cannibalization of gaming revenues in the market area and surrounding areas resulting from the proposed licensed facility expansion; and
- c) impact to existing gaming facilities (e.g., RECs, video lottery retailers, bingo and casino facilities) in the existing market area.

9.7.8 The facility licensee will be advised if its submission is determined to have merit based on AGLC's assessment of the:

- a) completeness and accuracy of information in the submission;
- b) the feasibility of the proposed expansion of the facility;
- c) benefit to charities due to the proposed expansion of the bingo facility;
- d) projected gross gaming revenue. A significant proportion of the gross gaming revenue to be generated by the proposed expansion is expected to be new gaming revenue and will not be drawn from other existing or approved gaming facilities; and
- e) impact on the viability of existing or approved gaming facilities.

Note: An initial assessment that deems the expansion of an existing licensed facility to have merit does not assure the level of success or support of the licensed facility expansion.

SUBJECT: EXPANSION OF A LICENSED BINGO FACILITY

9.7.9 If AGLC deems the expansion to have merit, Step Two Community Support may be initiated.

9.7.10 A proposal deemed to have merit shall not be considered or promoted as an endorsement by AGLC of an expansion of the licensed facility.

9.7.11 If AGLC deems the proposed expansion not to have merit, the approval process concludes and the expansion will be rejected.

9.7.12 The facility licensee who submitted a proposal that has been rejected by AGLC will be advised in writing of:

- a) the reason(s) for the decision; and
- b) the process to appeal AGLC's decision.

STEP 2 – COMMUNITY SUPPORT

9.7.13 Following from Subsection 9.7.9, AGLC may consider the views of the community including the views, if any, expressed by a council in relation to a proposed licensed facility expansion. AGLC may refuse to approve a proposed bingo facility expansion at any time throughout the process if it is of the view that the community is not in favour.

9.7.14 AGLC will:

- a) notify the council, through the council's chief administrative officer or municipal clerk or equivalent of the name of the applicant and details of the proposed expansion; and
- b) consider any written response of council respecting its views on the proposed expansion of the licensed bingo facility in the community.

9.7.15 AGLC will not consider any conditions placed on or attached to a council resolution respecting a licensed facility expansion in the community.

9.7.16 Applicants are required to issue a public notice in the community advising the community of the proposed licensed facility expansion in the community. The advertisement must:

- a) specify the addresses within the community affected by the licensed facility expansion;

SUBJECT: EXPANSION OF A LICENSED BINGO FACILITY

- b) be approved by AGLC for its content and layout prior to being published; and
- c) be published in at least three issues within two consecutive weeks, where possible, in a newspaper(s) published and circulated in the community where the licensed facility is located.

9.7.17 Following from Subsection 9.7.16, the applicant must submit to AGLC a copy of the complete newspaper pages containing the advertisements.

9.7.18 If the council is silent and there is no significant demonstrated opposition respecting the licensed facility expansion in the community, AGLC at its discretion may decide to continue the approval process.

9.7.19 If AGLC at its discretion decides to continue the approval process, Step Three Approval may be initiated.

9.7.20 If AGLC at its discretion decides to conclude the approval process for the expansion of the bingo facility in the community, the process shall conclude.

9.7.21 The facility licensee who made application for the expansion of the licensed facility will be advised by AGLC in writing of:

- a) the reason(s) for the decision; and
- b) the process to appeal AGLC's decision.

STEP 3 – APPROVAL

9.7.22 Following from Subsection 9.7.19, AGLC will make a determination respecting the approval of the proposed expansion of a licensed facility.

9.7.23 AGLC may approve the proposed expansion of a licensed facility if the facility licensee has met all of the other requirements in Section 9.7 and can:

- a) demonstrate compliance with the approved structure and amenity requirements as outlined in the application package;
- b) demonstrate compliance with all provincial and federal legislation, regulation and policies;

SUBJECT: EXPANSION OF A LICENSED BINGO FACILITY

- c) demonstrate compliance with all municipal requirements, including local zoning or development requirements respecting the expansion and produce any permits, licences or authorizations necessary to operate; and
 - d) produce a copy of an executed lease (should be executed after approval is received), rental agreement or certificate of title or other acceptable proof of right to occupy and control the premises (pursuant to Section 14 of the Gaming, Liquor and Cannabis Regulation).
- 9.7.24 If AGLC decides to approve the expansion of the licensed facility, AGLC will advise the facility licensee in writing it can proceed with construction.
- 9.7.25 AGLC may at its discretion refuse to approve an proposed expansion of a licensed facility if:
- a) the facility licensee has:
 - i) misled AGLC; or
 - ii) provided inaccurate or incomplete information respecting the expansion; or
 - b) the proposed expansion does not comply with the approved structure and facility requirements; or
 - c) there is a substantial change to, or circumstance affecting the validity of, the information previously provided; or
 - d) there is a substantial change to the market.
- 9.7.26 If AGLC does not approve the proposed expansion of the licensed facility under the authority of Subsection 9.7.25, the facility licensee will be advised in writing of:
- a) the reason(s) for the decision; and
 - b) the process to appeal AGLC's decision.
- 9.7.27 If the facility licensee disagrees with the decision of AGLC, it may appeal the decision in writing as follows:
- a) AGLC's Vice President of Regulatory Services will consider the letter of appeal from the facility licensee. If the appeal is

Volunteer Information (It is the responsibility of the Bingo Chairperson to ensure this form is completed in full.)

Operation of a bingo event is the sole responsibility of the licensed charity; it cannot be delegated. Only MEMBERS of the licensed charity, as defined in its bylaws, SHALL WORK as volunteers in the positions of Bingo Chairperson, Special Games Controller, and Paymaster in the cage area.

As an option, the licensed charity may use outside help (non-members) on a volunteer basis to fill other positions as required, or continue to use only members in all positions. Licensed charities whose members are disabled may accept outside volunteer help for all positions. BINGO VOLUNTEERS MAY NOT BE PAID FOR THEIR SERVICES. This option is intended to allow licensed charities flexibility in raising funds to support their approved charitable objectives. It is not intended to provide opportunities for groups not licensed to work a bingo event to obtain a donation in return for their help. Any non-members who work as volunteers must be known to the licensed charity.
